

Personal Health Inventory (PHI)

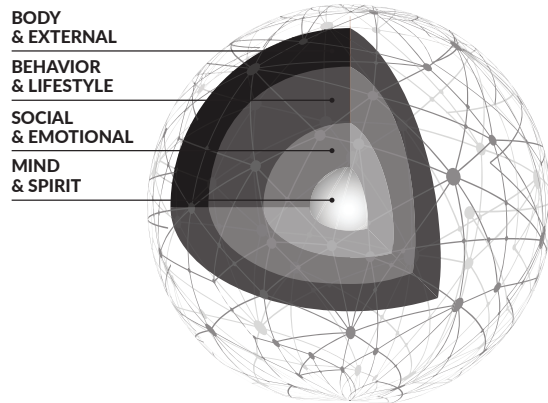

This personal health inventory is adapted from and aligned with the VA's Whole Health model.

PRIMARY CARE

Use this picture to help you think about your whole health.

All areas are important and connected to your ability to heal and be healthy.

- The outer ring addresses what your home and work are like and how you feel physically.
- The next ring addresses everyday choices on self-care and lifestyle.
- The social and emotional ring looks at your relationships and social support.
- The inner ring addresses what matters to you rather than what's the matter with you.

Rate where you feel you are on the scales below from poor to excellent.

	POOR	—————>			EXCELLENT
Physical wellbeing	1 ○	2 ○	3 ○	4 ○	5 ○
Mental/emotional wellbeing	1 ○	2 ○	3 ○	4 ○	5 ○
Life: How is it to live your day-to-day life?	1 ○	2 ○	3 ○	4 ○	5 ○

Thinking about your mental and physical health, which includes stress, depression, problems with emotions, physical illness and injury, for how many days during the past 30 days was your mental or physical health good?

Write 0 to 30 in the space provided.

This has been developed with the generous support, and on behalf of, the Samueli Foundation, Healing Works Foundation, and Wayne B. Jonas, MD.

What do you live for? What matters to you? Why do you want to be healthy?

Write a few words to capture your thoughts.

When were you last well?

Where You are Now: Choose a number between 1 (poor) and 5 (excellent) that best represents where you are now.
